* **NOTE:** A U.S. patent is assigned only one principal classification known as an Original Classification. The Original Classification is determined by the class of the *controlling claim* which, generally, means the most comprehensive claim. Patents may also have secondary or Cross-Reference Classifications which identify other technical subject matter disclosed by the patent.

The patents and applications included in these lists have 705/4 assigned either as an Original or as a Cross-Reference class. Because 705/4 may not be the class assigned to the controlling claim, some of these patents or applications may have only a marginal association with insurance processes.
